PROFESSIONAL SUMMARY

I operate at the rare intersection of managing high-value global accounts and hands-on building apps, fan engagement tools, and full-stack prototypes — turning brand strategy into tangible, tech-powered experiences.

Most job descriptions ask you to choose a single lane — strategist or builder. I've spent my career refusing to choose, and this site is where that hybrid path comes together.

PROFESSIONAL EXPERIENCE

Social Media Operator

Self-employed | Mar 2021 – Present

- Lead the strategy and growth of sports-focused digital communities (Fantasy Premier League Community in China), utilizing a suite of AI tools to drive engagement and performance analytics.
- AI-Driven Content Creation: Leverage Lovart for bespoke digital art to enhance visual engagement across Weibo and Bilibili.
- Strategic Growth: Built a community of 1.5K+ followers by analyzing audience data and utilizing Gemini to refine content narratives.
- Operational Prototyping: Used Cursor to develop mini-programs for FPL contests, improving user retention and automation.
- Event Management: Organize an annual FPL contest, managing the whole tournament regarding the rules, results announcement, and prize development (physical design souvenirs for winners). Every season resulted in oversubscription.
